# Discover Your Niche with 4 Signature Prompts

These four questions come directly from The Amazing Niche Master system. They're designed to help you uncover a niche that's not just profitable — but personal, sustainable, and authentic.

## 1. When you are not at work...

What are your favorite personal activities, subjects, or topics that you enjoy learning about in your spare time?

What specific aspects of these interests fascinate or energize you the most?

● Your curiosity is often the doorway to your niche.

## 2. How long have you been employed?

What career field(s)? What skills have you learned from the JOB that you can put to use? Did you get a license or certification?

● Your experience is not wasted — it's leverage.

## 3. What are some hobbies you enjoy...

*Or want to learn?*

● You don't need to be an expert — just someone with the courage to share what they're learning.

## 4. Reflect on impactful life experiences...

What specific events, challenges, opportunities, or adventures stirred your curiosity and passion the most?

What lessons did you learn that could benefit others?

● The niche you've been looking for lives inside your story.

### Mini Task:

Circle the 1–2 questions that feel most meaningful.

Write down 3 words or phrases under each.

You're not choosing a topic — you're rediscovering yourself.
